

GumDrop™ Pacifier

Customer Reviews

Nurse Highly Recommends!

I have never found a pacifier that the babies can keep in their mouths – until I found the GumDrop. I love them and all my clients and their babies do too!!

~ *Barbara, RN; Coral Springs, Florida* 11/07

These Pacifiers Are Amazing!

... So much better than the original SOOTHIE. First of all, the colors are way cuter and it forms around their mouth. Excellent product. If your baby will take a SOOTHIE, they will take this!

~ *Jennifer; Ray, North Dakota* 12/08

Outstanding

Outstanding product, much better than the large round ones the hospital gives you that are twice the size of baby's face.

~ *Benjamin Schrader; Milwaukee, Wisconsin* 10/07

Great alternative to the Soothie!

My daughter would ONLY take a Soothie...but they are so big and green – she took to GumDrop and they have been a great Soothie-replacement! Now she can suck away and we can see her cute little face!

~ *Anonymous; Pullman, Washington* 10/07

These are the best! If your baby won't suck on a pacifier, try GumDrops!

My baby hated pacifiers that I got from the store. I even purchased the "Soothie" which is very similar except the part that stays outside the mouth is round all around, so it would hit his little nose every time he sucked on it. Needless to say, he LOVES GumDrop!

~ *Melissa; Rupert, Idaho* 1/08

Highly recommended to any parent

It was amazing how my baby preferred the GumDrop over the Soothie. Forget other pacifiers, it's the GumDrop all the way!

~ *Anonymous; Andover, Minnesota* 9/08

Simply Awesome!

We bought our first GumDrop at our pediatrician's office when our little boy was born. He loved these from the beginning and they stayed in better than the Soothie the hospital gave us. They helped him sleep at night and during naps and didn't interfere with breastfeeding. They are really awesome. People ask me about them all the time. We don't leave home without an extra paci in the diaper bag in case one falls on the floor.

~ *Jack's Mom; Austin, Texas* 2/08

My Favorite!

This pacifier is so great! It is lightweight and was so much better for my preemie than those huge ones so often used in the NICU. I like being able to see my baby's face and not just a big round pacifier and 2 eyes! Thanks for this product!

~ *Anonymous; Thornville, Ohio* 12/07

Awesome!

These pacifiers are the best. My son came home with the Soothie from the hospital and didn't really care for it. He puts this one right in his mouth, especially the vanilla scented one. I keep buying them like every week because I like them so much and need to replenish my supply.

~ *Anonymous; Wappingers Falls, New York* 1/08

Even preemies LOVE a GumDrop!

My baby is now 35 weeks gestation and weighs 3 pounds, 13.8 ounces. She liked the Soothie pacifier but it's a little heavy for her and she's unable to keep it in her mouth. I came home to research a little and found your GumDrop pacifiers and knew I had to try one! When I popped the GumDrop into the mouth of my hungry little girl, she instantly calmed down and began to suck! Even preemies LOVE a GumDrop! She's still so small that it doesn't quite conform to her little face but it will. Thank you for your products. I will most assuredly order more of these pacifiers!

GumDrop™ Pacifier

Customer Reviews (continued)

Wonderful

As a neonatal nurse and a mother of a strictly breastfed baby, GumDrop really is a little miracle paci.

~ *Susana; Miami, Florida 8/07*

Aussie Loves GumDrop too!

My baby girl loves her GumDrop and it's the ONLY pacifier she will suck continuously. She literally spits any other brand out! GumDrop is the best!!!.

~ *O.G.; Perth, Australia 12/07*

The Best

This was the only pacifier my son would take and was given to him from the hospital. He held onto it for 6 months until we finally lost it and we both cried because he wanted it and I needed him to have it! He refused to take the other pacifiers I bought in the stores even though they looked similar. There's something about this pacifier that he loves and for that reason I swear by it!

~ *Sabrina; Bowie, Maryland 10/07*

Highly Recommended

The only pacifier my son will use. Excellent! Better than the Soothie and Nuk by far. Thank you Hawaii Medical.

~ *Anonymous; Anita, Iowa 11/08*

Fantastic even for breastfed babies!

We got our first GumDrop in the hospital when Noah was born – it fits him better than the bigger pacifiers and he loves it. He has been breastfed since the beginning and has never had any problems with it due to nipple confusion. Now I order pacifiers to give as baby shower gifts – they are great!

~ *Brienne Parker; Shawnee, Oklahoma 7/07*

Wonderful Invention!

My daughter loves it and won't take anything else.

~ *Donna; Toronto, Ontario 10/07*

Amazing Product

Our son loves it! We always carry an extra just in case...

~ *Jane; Brantford, Ontario 6/07*

Outstanding

Both I and my baby girl love this pacifier! It's the only one she could hold in her mouth for a prolonged amount of time. My sister-in-law gave one to me and I am so happy she did! It rescued me from plenty of sleepless days and nights. I recommend it to all mothers and mothers-to-be.
